

# MY STORY

Hello, Thank you for taking the time to look over my business that I am very proud of. My name is Alina Trandafir and I started Cristi&Ali Cuisine in 2009 as a way of paying off college. It was a very difficult time to start at the age of 19 years old, with only a credit card and very little cash. With my strong and independent personality, I was able to overcome all the challenges and create a successful business that I am so proud of today. I have learned about hard work at a very young age from my dad, and about strong personality from my single mom that raised my sister and I in Romania.

The name Cristi&Ali Cuisine is inspired by my grandmother's convenient store that she owned back in Romania which held the name Cristi and Ali after my sister's and my name.

Looking forward to partnering with you,

Alina Trandafir
